Summer and Fall Seeding and Top-Dressing.

Many farmers are finding it to their advantage to seed down during the summer and fall, claiming that by so doing they are apt to get a much better "catch" than they do when they follow the usual practice and seed down in the spring.

The same is true regarding top-dressing grass land. Some of the most progressive farmers put on top-dressing immediately after haying, with perhaps a small application of nitrate of soda the following spring.

If you will send your name and P. O. address to Carroll S. Page, Hyde Park, Vt., he will send you free, postpaid, several formulas for mixing fertilizers especially adapted to top-dressing and fall seeding, together with prices of ingredients, full directions for mixing, etc. These formulas have been approved by the Vermont Experiment Station and will be found thoroughly reliable.

BIDS WANTED.

For Repitching Main Street Paving.

The street commissioners of the city of Barre are to repitch the paving on Main street, of which there is approximately 9,000 yards. Sealed bids will be received at the office of the city clerk for the tools, labor, and material required for this work, said bids to be delivered at the city clerk's office not later than August 17, 1909, at 7 p. m. Bidders are requested to make their bids per yard, and to bid on supplying the tools, labor and material, and also to bid on the tools and labor separately, the city to supply the material. Full particulars regarding the work may be had on application to the street commissioners. All work to be done to the satisfaction of the city engineer. The commissioners reserve the right to reject any and all bids.

LETTER TO ROAD COMMISSIONERS.

State Highway Commissioner Gates Giving Close Attention to Roads.

Franklin, Aug. 6.—State Highway Commissioner Chas. W. Gates is sending out to every road commissioner in the state the following letter, which follows up and emphasizes a similar letter sent out in June inaugurating the semi-monthly inspection of roads.

The appointment of the "Maintenance Fund" for the year 1909 gives your town the sum of \$.....

This money comes from the automobile registration and license fees, and is available to towns for road maintenance as follows:

Resurfacing—When portions of state road that have been improved with state money need to be resurfaced, use only the best gravel obtainable, never loam or clay; and those portions of the state road that have not been improved, especially those that are of loam or clay, be careful to keep smooth and free from ruts and uneven or abrupt grades by the use of the drag or other effective means.

Inspection—The plan of inspection outlined in my letter of last June will be continued for the balance of this season.

At least once in two weeks, and if necessary, see that every road of your state roads is inspected and proper repairs made, giving first and special attention to your trunk lines.

The object of this plan is to lessen the cost of maintenance by properly looking after the water courses and culverts, and by giving the little breaks and defects prompt attention—"to take the stitch in time"—by removing all loose stones, filling holes, making approaches to culverts and bridges even and right, and by removing all water bars except those that are absolutely necessary and grading those with long and easy slopes.

You should pay for this work with orders on the town road fund as you do for any other town road work. Keep, however, a separate account of the cost of this work for the reports referred to below.

Reports—You will report once a month to this office and to your county supervisor, giving such information as is mentioned on the blanks furnished you.

Claims—At the close of the season, about November 1st, you will fill out a special claim blank, covering the expense of the work outlined above, have it approved by your county supervisor and forward it to this office. If the above mentioned requirements have been fulfilled, the claim will be allowed and I will issue an order in favor of the town from the maintenance fund for one half the amount of the claim, not exceeding the limit of your appropriation.

State roads—This term means the total mileage of selected highways whether improved with state money or not.

OPTICIANS NAME OFFICERS.

Vote to Hold Next Year's State Convention in Rutland.

Rutland, Aug. 6.—The second annual convention of the Vermont Optical society closed at The Bardwell in this city yesterday afternoon. It was unanimously voted to return to Rutland next year for the third annual convention. The morning session yesterday was devoted almost entirely to discussion of the new Vermont optical laws, designed to raise the standard of optometry, and the best means of getting at the violators.

The following officers and committees were elected: President, F. H. Palmer, Bristol; vice-presidents, G. H. Reynolds, Burlington and L. H. Melvor, Newport; secretary, C. J. Cleveland, Lowell, Mass.; treasurer, H. W. Randall, St. Johnsbury; executive committee, A. J. Garrett, Rutland, M. J. Brooks, Barton, H. W. Parker, Lyndonville, F. J. Brown, Rutland; legislative committee, A. S. Haskins, St. Johnsbury, J. B. Reynolds, H. F. Jordan, Brattleboro; membership, C. W. Parker, Fair Haven, G. C. Lang, Barton, C. M. J. Hughes, Newbury, E. B. Vaughan, Brattleboro, E. L. Taylor, Barre, A. S. Haskins, W. M. Reed, Montpelier, E. J. Brown, auditing, H. F. Jordan, A. B. Campbell, Morrisville, W. M. Reed.

The following members have been admitted to the society: C. R. E. Best and Elma Y. Best, Keeney Falls; F. J. Brown and M. A. Barlow, Rutland; E. L. Taylor, Barre, A. S. Haskins, W. M. Reed, Montpelier, E. J. Brown, auditing, H. F. Jordan, A. B. Campbell, Morrisville, W. M. Reed.

TO RECONQUER GRANADA.

Riffs Believe Time Has Come to Avenge Boabdil.

Malilla, Morocco, Aug. 6.—The Moors who Wednesday attacked a Spanish commissary convoy obliged the Spaniards to retire until the arrival of reinforcements. The Spaniards then advanced and drove the enemy back.

Alfonso reports that the Riffs are preaching a holy war against Spain and a picturesque feature of their arguments is a revival of the old legend, according to which the Riff Arabs, who are descendants of the Spaniards driven out of Spain by Isabella and Ferdinand, are destined to clear the Spaniards out of Africa, cross Spain and conquer the country over which Boabdil, the last king of Granada, ruled.

Every Riff family is being visited by the priests, told that the time for the fulfillment of this legend is now at hand and urged to enter the war to regain the Alhambra.

New Lincoln Penny Dies.

Washington, Aug. 6.—Secretary of the Treasury MacVane announced yesterday that he had decided to have the minting of the new Lincoln pennies stopped for the present and that new dies will be prepared as soon as possible, eliminating the initials of the designer, which now appear so prominently, and substituting the single initial D in an obscure part of the design.

RELIGIOUS FIGHT IN MEXICO.

Railroad Employees Attack Protestant Church at Silao.

Mexico City, Aug. 6.—A special despatch from Silao says: Shouting "Viva Reyes," a mob of railroad employees celebrated their last pay day by surrounding the Protestant church of Calles Bonito Juarez and vigorously assaulting the place. Some of the fifty worshippers within were bruised and beaten. The mob was dispersed by mounted policemen who arrived about the time some of the members of the congregation came to the door and began to fire their pistols into the air. All the windows of the church were smashed.

The strike of the National railroad train dispatchers was broken yesterday. The strike had had no effect on traffic.

JAPAN FORTIFIES FORMOSA.

Two Strong Naval Bases Are Established.

Victoria, B. C., Aug. 6.—Paul Bell, a civil engineer, who returned yesterday from Formosa, says that millions of dollars are being expended on Formosa's harbor works and fortifications in pursuance of a plan to establish Japanese naval bases in Keelung on the north and Takao to the south. The Japanese are adopting a novel method of dealing with the rebel and hunters of Formosa. They have stretched trenches of barbed wire across the districts, heavily charged with electricity. The rebels make occasional raids, and shortly before Mr. Bell left they rushed a Japanese settlement and killed thirteen Japanese, carrying off their heads.
